

## **RLS-Energy Network Workshop at the 9th RLS Conference**

*17 May, 2018, Québec*

The Energy Network held a meeting with external guests to facilitate exchange between the regions and with organizations in the renewable energy field in Québec. This exchange included presentations from existing bi- and multilateral collaborations, as well as illuminating the specific opportunities for further collaborations. The network then held an internal meeting to discuss next steps following the publishing of its first Monitoring Report.

Review the presentations:

[IREQ: Setting New Sights With Our Clean and Renewable Energy](#)

Ahmed Daoud, Québec

[CIRAIG: Supporting a successful energy transition](#)

Sophie Fallaha, Pierre-Olivier Roy, Quebec

[The BELT Biorefinery Project: The first Canadian renewable fuels biorefinery challenges and solutions](#)

Patrice Mangin, Québec

[TEQ: Québec's journey toward energy transition](#)

Mathieu Payeur, Québec

[Research on Power-to-X Concepts](#)

Robert Tichler, Upper Austria

[Monitoring on Renewable Energy in the RLS regions](#)

Sebastian Goers, Upper Austria

[Shandong Renewable Energy Outlook: Low Carbon Initiatives](#)

Keng H. Chung, Shandong

[ClimEx: The sensitive interface of climate change and energy systems- perspectives from the ClimEx-initiative](#)

Alain Bourque, Québec, Ralf Ludwig, Bavaria, Anton Frank, Bavaria
